FIRST AID SOLUTIONS
MADE FOR YOU

The goal of GotSafety First Aid is to help all businesses, big and small, to stay OSHA compliant. We have partnered with First Aid Only® to bring you over 150 years of first aid experience and an extensive inventory, including nitrile gloves, hand sanitizer, burn cream, and more. We provide customers with many affordable safety solutions, offering some of the lowest prices in the industry.

We make it easy to maintain workplace safety with our variety of ANSI and CAL/OSHA Compliant Kits. We offer solutions for single building sites, multi-sites or mobile operations. Choose the kit size that works for you.

Refill options are also available for replenishing your kit contents, ensuring that your first aid materials are always ready in case of an emergency. Prevent additional OSHA fines by keeping required items stocked in your kit.

Even with the best safety training programs and Personal Protective Equipment, workplace injuries can still happen.

WHAT CAN YOU DO?

Analyze the facility or worksite for hazards

Determine what type of first aid materials you need to maintain on the site

Document the company's first aid procedures and employee first aid training

Ensure that first aid provider's certifications are current

Evaluate the types of work-related injuries your employees might have, and determine if they would need to be recorded in the OSHA 300 Log
